E-mail: h.guschall@sicon.eu

› Key Figures:

Manufacturer:	Eriez
Year of Manufacture:	2009
Colour:	6016, 6018 RAL
Magnet Type:	Neodym, Iron, Boron
Application:	Recycling, minerals and ceramic
Drum Diameter:	305 mm
Drum Width:	1,000 mm
Drum Surface:	manganese steel
Drive:	280 V, 50 Hz, 3~, 0.75 kW
Strength:	approx. 6,500 Gauss
Coating:	1 x primer coating, 1 x finish coating laquer thickness: 40 µm
Price:	On request

› General Features:

- Robust construction
- self-cleaning
- high throughput
- low maintenance costs
- Better separation as other magnetic drum separators

› Availability:

- On stock
