

SICON Shrednology®

The patented SICON Shrednology® process is the perfect solution for processing mixed commercial scrap and end-of-life vehicles. The unique design makes the installation easy and inexpensive.

The combination of pre-shredder and main shredder with a capped rotor minimizes the environmental impacts.

By adding the SICON Ferrous Downstream ScrapTuning® high-quality scrap can be generated at low operational cost.

- Rotor can be tilted hydraulically
- Improved product quality
- Low Voltage Power Supply
- Integrated Pre-Shredder
- Compact design with integrated tilter
- Easy maintenance, perfect accessibility
- Dense scrap by achievement of fullbox shredding
- Easy to install and low infrastructure requirements
